*Overview of the 1W1P Program through the Board of Water and Soil Resources and a panel discussion represented by those currently involved in the planning and implementation process throughout southern Minnesota.*

**mn BOARD OF WATER AND SOIL RESOURCES**

**12:00 Lunch** -BBQ, Salad, Beans, Chips, Dessert, Refreshments.

**12:30 Faribault County Soil Health Team**

*Formed in 2016, the Soil Health Team is a landowner driven/SWCD coordinated and created group. The small network of local farmers has members geographically located throughout the county as well as representation from all aspects of farming. Soil Health Team members not only implement soil health practices on their own land, they conduct soil health outreach in their communities by hosting field days, demonstration sites, speaking at conferences and meetings, giving interviews, and planning workshops. Through this collaboration, they are able to amplify their voices and play a key role in driving a countywide movement to improve soil health.*

**Mission...To increase awareness of soil health and benefits of reduced tillage, cover crops, and diverse crop rotations.**

**2:30 Closing Remarks – Safe Travels!**

*A special thank you to the MTS Farm and Events and the Faribault SWCD for providing the spectacular venue and hosting the day's events and Stevermer Catering – Bricelyn, MN.*
